

# INFECTION PROTECTION HELPS TO REDUCE THE OCCURRENCE AND SPREAD OF OUTBREAK CAUSING VIRUSES

**INFECTION PROTECTION®**  
SAFER HEALTHIER WORKPLACES

Infection Protection will help you be proactive in improving the health of your facility with our Infection Control Program. Using an Electrostatic, 360 degree spray coverage, Infection Protection quickly attacks most germs and viruses and is ideal for any facility where public to public interaction takes place.

Reduce costs by having less staff off sick and improve the safety of your facility for staff, guests, customers and students by utilising the services of Infection Protection. If there is a sudden outbreak, we have an on call Rapid Response team that can quickly come out to sanitize & disinfect your facility in no time.

## PROACTIVE

Australia's first proactive infection control program

**KILLS CORONAVIRUS, SARS-CoV-2 (COVID-19) and 99.9% of ALL BACTERIA**

**TGA REGISTERED**  
ARTG 332715

## SAVE MONEY

Helps reduce staff replacement costs

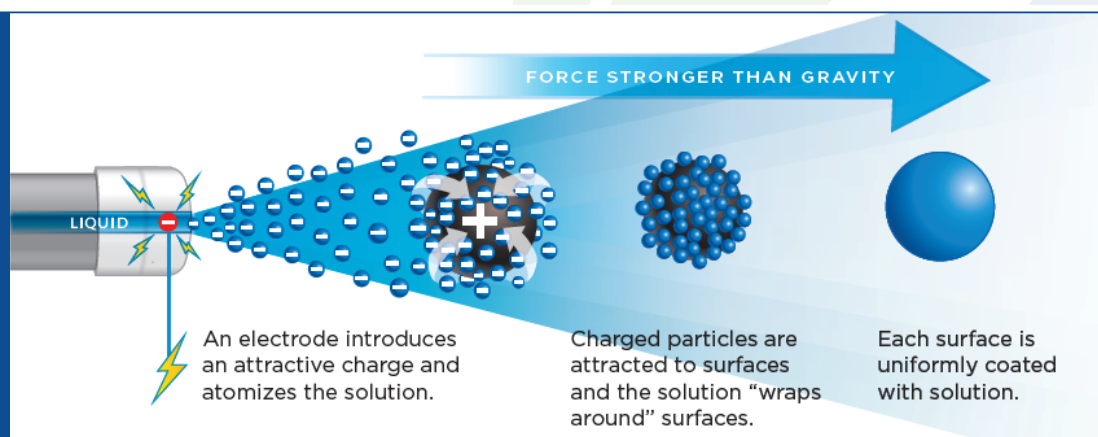

## A NEW WAY TO FIGHT ILLNESS AND ITS COST!

Illness costs businesses millions of dollars per year in lost productivity and staff replacement. Infection Protection's 360 degree electrostatic technology kills 99.9% of bacteria.

## Clorox® Total 360® System Delivers Superior Results

The Clorox® Total 360® Electrostatic Sprayer, with the patented PowerWrap™ nozzle, is an efficient, reliable and powerful method to ensure all surfaces – front, back and sides – can be properly disinfected and sanitized.

### Electrostatic Technology with Clorox® PowerWrap™ Nozzle

**The Australian Therapeutic Goods Administration (TGA), has confirmed that Clorox Total 360® [ARTG 332715], manufactured by The Clorox Company, can add "Kills Coronavirus, SARS-CoV-2 (COVID-19)" to its label in Australia.**
